ANUJ SAMUEL LAKRA

PROFESSIONAL SUMMARY

- 11+ years of experience in software testing and quality assurance in automation and manual testing.
- Strong hands-on experience on overall Testing Methodology.
- Capable for handling end-to end quality activities with very good understanding of testing tools and methodologies.
- Expertise in testing of web-based applications and middleware systems.
- Expertise in test automation using **Selenium web driver (Java and Ruby)** and QTP.
- Expertise in testing **CRM application- Salesforce.**
- Experience with integration of the Selenium scripts with *Jenkins* as part of *Continuous Integration.*
- Experience working in **Waterfall** and *Agile Methodology* of project execution.
- Knowledge on behavior driven development.
- Developed Test Plans, Test Cases and Test Scripts based on requirements and also involved in Test Closure activities.
- Has experience in **automation feasibility studies**, estimation and framework designing.
- Has **coordinated cross program** release and active communication with business users, development teams and testing teams across Globe.
- Assisted in Project Management and related activities like submission of SLA metrics to the client, creating project status report.
- Experience in planning and executing quality assurance & testing phases including Integration Testing, Regression Testing, System Testing (End-to-End) and Deployment Readiness Test.
- Ability to learn at a rapid pace, work under strict deadlines, good at **problem solving**, excellent decision-making skills, well organized, self-motivated, adaptable, responsible hardworking team player and can work independently as well as team member.
- **Cross culture working experience** at client locations in multiple countries Belgium, Philippines USA and India.

Experience

Cognizant Technology Solutions Corp.   2007 to Till Date

PROFESSIONAL EXPERIENCE

Quality Assurance Test Lead   June 2017 - Present

Cognizant Technology Solutions Corp.   VA, USA

Client – Gannett

Testing of pre-print order entry applications and its integrated system.

- An individual QA in the project to ensure the deliverable standards are met.
- Analyzing business user requirements and application existing functionalities. Prepared test strategy.
- Preparation of automated regression test suite using Selenium web driver using open2test keyword framework.
- Implementing continuous integration with AWS using cucumber, Jenkins and Selenium Web driver.
- Supporting other teams in test automation setup and best practices implementation
- Applications – *Web based Gannett applications*
- Software development methodologies followed – *Agile*
- Skills applied: ***Selenium Web driver, BDD, JAVA and Ruby***
- Environment and tools: ***JIRA, Open2Test framework, Eclipse, Jenkins and Cucumber***

Quality Assurance Test Lead   Feb 2015 – March 2017

Cognizant Technology Solutions Corp.   AZ , NJ & NY, USA

Client – Pearson Education

Managed testing of multiple applications concurrently and delivered quality results on schedule for OneCRM (Salesforce) and IDAM projects

- Leading System integration and End to End test phases for Cross Program integrations.
- Coordination and communication with Business Users, test teams and Development teams from across Globe (UK, India, Australia & USA).
- Active participation in future release planning and estimation
- Responsible for preparation of Quality Management Plan (QMP) for each release
- Responsible for test artifacts documentation like daily status reporting, weekly status reporting and test closure reports.
- Actively involved in designing and executing complex test cases for integration platforms
- Leading regression and risk-based testing for Salesforce application integration layer
- Leading End to End testing of application functional implementation and integration with various end system.
- Perform RCA for production incidents and support on production deployments
- Test automation framework design in Java
- Integration of test automation suite Jenkins for Continuous integration.
- Used svn to manage test script for version controlling.
- Preparation of Test scripts for Smoke, UI, Functional and Regression testing based on test objectives using Selenium WebDriver
- Achieved 75% of test automation coverage of regression suite for OneCRM application.

- Automated test suite design for identity management migration assignment to ensure smooth and timely execution for different Geographies
- Automation test suite design for OneCRM application (Salesforce).
- Performed proof of concept on Salesforce application test automation using Enterprise API
- Applications – *Salesforce Sale Cloud, Service Cloud, Marketing cloud systems and Web based Pearson applications*
- Software development methodologies followed – *Waterfall*
- Skills applied: **Selenium Web driver, IBM ESB, Web services, API and JAVA**
- Environment and tools: **JIRA, Toolkit, HP ALM, Eclipse, Jenkins and Salesforce sandbox**
- Won *"Bronze award for Excellence in Delivery" under Customer Focus category*

Quality Assurance Test Lead   Jan 2013 – Feb 2015

Cognizant Technology Solutions Corp.   India and Philippines

Client – Cambridge University Press (CUP)

Managed testing of application across multiple releases and timely delivered results

- Test Strategy preparation for the Cambridge Learning Management System application
- Active participation in future release planning and estimation
- Mentoring the Cambridge test team (UAT) with test process and implementation of innovative ideas
- Ensure the testing process in inline and followed throughout the project lifecycle
- Perform regression testing across the releases to ensure the quality deliverables for production deployment
- Automation framework design using Java
- Achieved 85% regression suite automated for timely deliverables with robust testing
- Preparation of Test scripts for Smoke, Functional and Regression testing based on test objectives using Selenium WebDriver
- Involved in Review of Automation test scripts and estimations prepared by team members
- Coordination and communication with Business Users, UK UAT Managers, Cognizant Development team and multiple geography UAT team members (Canada, UK, India & Manila)
- Performed proof of concept on BBD and Cucumber Java implementation
- Applications – *LMS system, Touchstone application*
- Software development methodologies followed – *Agile*
- Skills applied: **Selenium Web driver, JAVA and JIRA**
- Environment and tools: **JIRA, Eclipse**
- Won *"Cognizant Star Award 2013"*, *"Best Innovative idea presenter award - CUP 2014"* and *"Certificate of Recognition for organizational social activities – Outreach"*.

Quality Assurance Test Associate   July 2011 – Jan 2013

Cognizant Technology Solutions Corp.   Brussels, Belgium

Client –Euroclear Bank

Managed Collateral Management system testing, covering the standard settlement and custody activity in multiple releases

- Analyzed business user requirements and application source code. Prepared test strategy and implementation document.
- Performed regression and risk-based testing for collateral management applications.

- Designed and executed complex test cases for infrastructure upgrade with cross border EB Triparty
- Leveraged SWIFT message knowledge and tested Collateral messages and settlement process which processed SWIFT MT527, MT558, MT507, MT543, MT542, MT541 and MT540.
- Devised test strategy, created test plan, designed and executed test cases, updated traceability matrix, managed defects, and published daily test status reports.
- Automation framework design and implementation for web interfaces
- Applications – *Collateral Management applications*
- Software development methodologies followed – *Waterfall*
- Skills applied: ***SPUFI, QMF, MQ, Query Analyzer, SQL***
- Environment and tools: ***Mainframe, Quality Center, QTP 9.1***
- Won *"Rising Star of Europe 2012"* award for outstanding performance throughout the year in organization

Quality Assurance Test Analyst   Jun 2009 – Jun 2011

Cognizant Technology Solutions Corp.   India

Client – JPMorgan Chase Bank

Testing multiple applications of Asset Management concurrently and delivered results ahead of schedule.

- Analyzed business user requirements and application specification documents. Prepared test strategy and implementation document.
- Designed and executed complex test cases for Private Banking applications
- Performed regression testing for private banking application
- Executed complex business flow around securities functionalities
- Automated test suite design for multiple assignments (web, AS400) to ensure smooth and timely execution
- Prepared macro based tool for data integrity check
- Applications – *Asset Management applications, AS400 application*
- Software development methodologies followed – *Waterfall*
- Skills applied: ***VB script, SQL***
- Environment and tools: ***QTP, Quality Center, Windows, AS400***
- Won "*Above and Beyond*" award and multiple *"Pillar of the month"* award.

Quality Assurance Test Analyst   Nov 2008 – May 2009

Cognizant Technology Solutions Corp.   India

Client – Credit Suisse

Test automation implementation for multiple applications.

- Performed automation feasibility study for multiple applications
- Design appropriate test automation framework based on need
- Automated test suite design for multiple assignments to ensure smooth and timely execution
- Devised automation test strategy, created test plan, designed and executed test suite, updated traceability matrix, managed defects, and published daily test status reports.
- Applications – *Web based applications*
- Skills applied: ***VB script***
- Environment and tools: ***QTP, Quality Center, Windows***

Quality Assurance Test Analyst   Sep 2007 – Apr 2009

Cognizant Technology Solutions Corp.   India

Client – JPMorgan Chase Bank

Testing multiple applications of Asset Management concurrently and delivered results on schedule.

- Analyzed business user requirements and application specification documents. Prepared test strategy and implementation document.
- Designed and executed complex test cases for Private Banking applications.
